ATLITE SKYLIGHTS

9584 8500
www.atlite.com.au

We recently launched our New Premium Roof Window that has been skillfully designed by our team of qualified engineers in collaboration with Swinburne University. This product can be custom-made to fit any size or shape therefore our customers do not need to compromise their creativity when choosing to add natural light into their homes or designs. We have custom-made products that are square, round, rectangle, triangle and hexagonal. Our stunning, sleek designs feature edge to edge glass, removing the bulky trims of other skylights. The roof window is double glazed that provides proficient insulation all year round. Our glass is fire resistant (Bal40 rated), leak proof, hail resilient and can come with a self-tinting laminated glass using thermochromic technology. The roof window can be fixed or openable either via remotely powered or manual operation with an out of reach operating pole. The Atlite Roof Window can be installed on a ZERO pitch and comes with a 15-year warranty.
